Family Input for 2022-23 Placement

It is the time of year when we are working hard to finish this year strong, and we start thinking about next year. The adults are beginning the long process of making class lists for next year. One piece of the process involves getting input from our families. Attached to this letter is a paper copy of our Family Input Form. You can also access [this form online](#).

As families, you know your student(s) the best. You were their first teachers and play a vital role in their education. Your insight and feedback is invaluable. Please go through the questions carefully, and give us as much information as you think is necessary. Even if you think we already know, tell us again!

Please note that requests for specific teachers will not be honored. As a school, we work hard to create balanced lists for all of our students and classrooms.

All forms, paper or electronic, need to be completed and returned to your student's current classroom teacher (paper form only) by March 25th.
